

REMARKS/ARGUMENTS

Request for Continued Examination:

The applicant respectfully requests continued examination of the above-indicated application as per 37 CFR 1.114.

5

This is a full and timely response to the Office action of March 01, 2010.

The Examiner is thanked for the time spend working with the applicant in an effort to complete prosecution of the application.

10

The applicant has made every effort to amend claims 1, 18, and 22 as proposed by the Examiner. Claims 3-4 are therefore canceled. Additionally, in the previous response to this Office action, claims 23-24 were inadvertently left out of the listing of claims. As stated immediately above that listing of claims in that response, no claim amendments were intended and claims 23-24 were not canceled. However, to avoid any possible ambiguity, in this response claims 23-24 are canceled and reintroduced in their entirety as new claims 25-26. No new material is introduced.

15

For at least the reason of statements by the Examiner in telephone and fax correspondence on or about August 25, 2010, the applicant believes that the current application represents a new and useful disclosure not known or made obvious by known references.

20

Therefore, the applicant respectfully requests reconsideration of the application and that a timely Notice of Allowance be issued in this case should the Examiner concur.

25

Recognizing that Internet communications are not secure, I hereby authorize the USPTO to communicate with me concerning any subject matter of this application by electronic mail. I understand that a copy of these communications will be made of record in the application file.
